

MEMBRANE TECHNOLOGY PLATFORM 2017

Hyatt Regency, Bloomington, MN • May 8 - 10, 2017 • Minneapolis, MN

Submit Your Abstract Today!

“Well organized, excellent Membrane Technology Event.”

“Great Networking Event with End-Users, OEMs, Membrane Manufacturers, The Experts in the Field”

“Must meeting for plant operators, engineers, technicians, market managers and product formulators.”

CALL FOR SPEAKERS

Brought to you by: Filtration and Membrane World

Save the Date: May 8 - 10, 2017!

Ready to network with experts or share your Membrane Technology knowledge with others in the Food, and Biotechnology industries?

The Membrane Technology Platform is currently seeking experts to present on membrane business, new technologies, plant/process optimization, new applications.

- Membrane Chemistry, Process, System Design, and Modules
- Technical and Practical Issues of Fouling, Cleaning and Chemicals
- Specialized Membrane Systems for Unique Applications
- Milk & Dairy Applications - Milk, Cheese, Greek Yogurt, Yogurt, Lactose
- Non-Dairy Beverage Applications – Juice, Teas, Sports Drinks, Smoothies
- Wine and Beer Applications
- Sugar, Starch and Protein Applications
- Biotechnology Applications – Cell Recovery, Bioactive Separations, Fermentation Broth
- Process Waste Water Application – Water Recycle and Reuse
- Biofuel, Algae and Oleochemical Applications
- New Membranes and New Technologies
- Practical Issues for Membrane Operators and Plant Engineers
- Process Optimization and Best Practices in Use of Membrane Technology

Become A Sponsor

A sponsorship at the forum gives you the chance to enhance your business and market and meet with industry decision makers.

- Meet Face-To-Face with your target audience.
- Maintain and Expand business relationships with prospective and existing clients.
- Exhibit your latest technologies, membranes and services.
